

Iron Hammer

AL400 - AL401 - AL402 - AL403 - AL404 - AL405

Made of lacquered steel, and equipped with a device that facilitates the refilling and calibration for the homologation during competitions. Handle and cable included.

The cable is connected to the hammer through a bolt equipped with ball bearings that guarantee free rotation.

After a degreasing treatment, consisting of a pressured phosphate bath, the product is painted with polyester powder paint and polymerized at 200° C in an oven.
