

Steeplechase Hurdle Carts

AC049

The hurdle cart is made of a U-shaped metal support that holds the base of the hurdle allowing its movement due to four built-in swivel wheels.

All metal elements, such as screws, the rotating axes, etc. are zinc-coated.

After a degreasing treatment, consisting of a pressured phosphate bath, the product is painted with polyester powder paint and polymerized at 200°C in an oven.

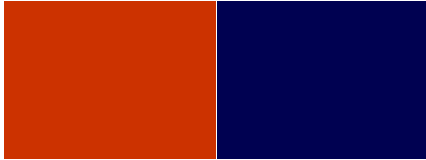

SALES UNIT

Set of two carts, suitable for 1 hurdle.
