

Beach volley referee's podium

PY045

The triangular podium, can be placed as high as necessary for control of game.

The entire frame is made of painted steel. The platform upon which the referee is placed is an aluminum skid plate and can be adjusted in height and accessed via a three-step ladder. The referee, once situated, is protected against falls by a protective back that is height adjustable. The entire podium is protected with a protective frontal-lined canvas in which advertising can be placed.

It is not allowed for use on other surfaces than sand.

Standard color: yellow.
