

Single-pipe Aluminum High Jump Standard

AA020

Designed and manufactured in accordance with the Regulations of the International Federation

The upright is manufactured from an extruded aluminum profile, with a square section of 80 x 80mm with rounded edges, equipped on one side with a guide.

It holds one crossbar support that slides vertically along the guide.

Adjustable from 0.63 m to 2.60 m.

The base features two leveling knobs for perfect positioning on any surface, and two 60 mm wheels for easy movement.

After a degreasing treatment, consisting of a pressured phosphate bath, the product is painted with polyester powder paint and polymerized at 200°C in an oven.
