

Garage for High Jump Landing Area

AA451 - AA456 - AA470 - AA480

It consists of two modules. The perimeter walls and the roof are made of corrugated, galvanized and lacquered sheet metal.

Each module includes 4 pivoting wheels that facilitate movement.

The overall dimensions are approximately 0.50 meters greater than the relative landing area.

Notes: The product is supplied disassembled. Assembly shall be performed by MONDO staff. Assembly is object of a separate estimate.
