

Basic tennis-padel scoreboard

MEPALR

Specific padel/tennis scoreboard, manufactured in aluminium metal structure of 2,5 mm extruded profile. The structure is painted with polyester powder paint, which is applied after a degreasing treatment using a pressurised phosphate bath and cured in an oven at 200°C.

All the structure joints are sealed with a neoprene gasket, allowing them be operated in outdoor weather conditions.

Scoreboard options are displayed with digits made of high brightness SMD LED diodes (amber colored) in a 120 ° angle. The digits are protected in the front by a polycarbonate anti-glare matte, providing good visibility in direct sunlight.

There is a total of 10 digits of 17 cm high. The scoreboard has an automatic brightness control with three different levels of brightness depending on ambient light.

SCOREBOARD OPTIONS:

- Game score: two digits for each team or individual player.
- Service indicator: to show which player/team is in possession of the service.
- Games won by each player/team in each set (1 digit per set). It records up to 3 sets.
- Tie-Break Indicator.
