

Set of two aluminium anchors

PB120

Set of two aluminium anchors for MONDO equipments. They are compatible with the following references:

Tennis:

- PT001

Padel:

- PL001

Handball /Futsal:

- PB033
- PB038

They are made of ribbed squared aluminium tubes with each side measuring 80 mm.

They have to be anchored to the ground at the appropriate distance and location depending on the sport equipment. Line marking has to be done in accordance with official regulations of the different sports.

Once the anchors are embedded, the MONDO compatible equipment has to be placed inside, as the anchors are designed exclusively for them.
