

Competition tennis net

PT800 - PT805

The net is constructed of high tenacity polypropylene knotless netting (Raschel system). The net thread thickness is either 3 mm or 4 mm (upon customer's choice) with a width of 43 mm in square configuration.

The total net dimension is 12.800 x 1070 mm.

The net has a white fabric band on the top and a black polyester trim around the sides and bottom.

The following accessories are included:

- 3 x 5 mm plastic laminated cable.
- 4 fixing points (two on each net side) including buckle, 6 mm ppm string, cable clip and plastic strut.
- Glass fiber rod (8 mm) on each side.
