

Tennis referee chair

PT700

Tennis referee chair, manufactured with a structure made of circular steel tubes. The product is supplied dismantled and includes: a main structure, back structure and stiffener.

The main structure has an access stairway to the seat which is located at the top. Two safety side rails provide the necessary security when the referee is seated. The seat is a MONDOSEAT type 3 made with injected polypropylene. It has an ergonomic design and high resistance to U.V. rays and atmospheric conditions. The rear structure has a trapezoid shape to give more support surface and consequently, greater stability to the product. The main structure is fixed with a stiffener and at the top, with screws.

All junction elements have been submitted to a zinc treatment.

The product is painted with polyester powder paint, which is applied after a degreasing treatment using a pressurized phosphate bath and cured in an oven at 200°C

Standard colour: blue.
