

One sided possession scoreboard support for MONDOATHENS or EUROLEAGUE basketball units

PK195 - PK196

Set of two structures to be placed one on each basket of MONDOATHENS or EUROLEAGUE units, for the purpose of mounting a MONDO time of possession indicator board (single face model).

The structure is made from ST37 quality steel and painted with epoxy paint in blue or black, like the MONDOATHENS/EUROLEAGUE basketball units.

The structure consists in a square tube post with a bracket at the top onto which the possession indicator is fixed.

The tube is fixed to the arm of the basket through a foldable backstop which is also in the form of a tube and gives rigidity to the structure.

The product is painted with polyester powder paint, which is applied after a degreasing treatment using a pressurized phosphate bath and cured in an oven at 200°C.

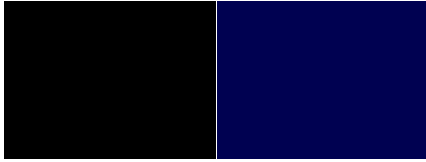

Standard colour: blue (MONDOATHENS) or black (EUROLEAGUE).
